BAND SAWMILLS FROM LOGOSOL

WHY LOGOSOL IS THE BEST CHOICE

We are confident that we offer the best sawmill on the market! Those who have tested various bandsaw mills notice the difference right away. First and foremost, Logosol's bandsaw mills deliver exceptionally straight cuts – a critical feature when building and constructing with your sawn lumber. Our sawmills are also incredibly stable, with smart solutions in every detail. These are just a few of the essential qualities you'll appreciate when choosing Logosol!

We look forward to welcoming you as a customer. Here are some key points we'd like to highlight:

1. RAZOR – SHARP AND STRAIGHT CUTS

Logosol's bandsaw mills are designed to produce perfectly straight cuts, a level of precision few competitors can match. Straight and accurate boards make all the difference when building with your lumber.

2. ROBUST & STYLISH CONSTRUCTION

The robust construction of the Logosol band sawmill is unrivaled. It provides stability in any condition, and it's something you'll quickly miss if you opt for another manufacturer. Plus, with their durable yet stylish design, our sawmills make a great addition to your yard.

3. INNOVATIVE PATENTED FEATURES

Our sawmills are engineered to provide a superior sawing experience and flawless results.. For example, we have patented bandsaw wheels with fan wheels that efficiently blow dust off the bands while cooling them. We also have patented log clamps that secure logs tightly without damaging the wood, as well as an adjustable, premium blade guide for optimal cutting results.

4. SWEDISH STEEL & MANUFACTURING

We never compromise on quality. Our sawmills are built with Swedish steel and precision-engineered to perform at the highest level and endure for years. Every component is carefully crafted to ensure maximum durability and longevity.

5. BEST WARRANTY IN THE INDUSTRY

With a 5-year warranty and a two-month money-back guarantee, you can enjoy total peace of mind. Try out the machine for two months to ensure it meets your expectations before making your final decision.

At Logosol, we are passionate about sawing and developing the world's finest sawmills!
Since 1989, we've sold tens of thousands of sawmills worldwide. We design and manufacture our sawmills in-house at our factory in Sweden, focusing on smart design and top-tier quality. With a Logosol sawmill, you'll own a stable machine equipped with premium accessories, ensuring a smooth and enjoyable sawing experience from the first cut to the final board!
