logosol.com

Welcome to a reliable family business!

Lift your project with the right equipment!

You can confidently choose Logosol when you are going to work with wood. Every day we talk to customers all over the world who use our machines in their businesses or for building and renovating. After more than 35 years in the industry, we have both the knowledge and the product range that is required for you to get the maximum benefit from your investment.

Your equipment is covered by a peace-of-mind guarantee that includes generous warranties and support from skilled technicians. Our main concern is that your machine is safe and works perfectly. Logosol's products have proved to have a very long life. This makes your purchase more economical.

> Wood processing is a profitable occupation, whether it is for personal use or for selling. Smelling the scent of wood, working with a log, which then becomes something lasting, this is something I wish many people got the opportunity to experience!

Please visit the Logosol website logosol.com for more information on products, warranties and shipping. We are active on Facebook, Instagram and YouTube. You are very welcome to follow us there!

Bengt-Olov Byström

Bengt-Olov Byström started Logosol in 1989. The company is still owned by the Byström family, with its headquarters in Sweden.

5 year warranty on all machines

Reliable deliveries all over the world

Over 35 years of experience in the industry

Family-owned with customer-oriented service

Some products and accessories are not available in all markets. • For current prices, visit **www.logosol.com** • 5-year warranty and 60 days money-back guarantee

LOGOSOL

Warranties for a safe buy

5-year warranty

Logosol gives you a 5-year warranty on all machines. Consumable items, such as belts, guide bars and chains, are not covered by the warranty.

2-month money back guarantee

Logosol gives you a two-month money back guarantee on all machines. You can test whether the machine meets your requirements before you make your final decision. If you regret your purchase, you only pay for consumable items and the return shipping.

Support all over the world

We provide service and support on our products. Skilled technicians answer your questions by phone, +46 611 18285, from 8 am to 4 pm all weekdays. You can also get support by email. We are happy to help you!

CHAIN SAWMILLS

Over 40 000 sawmills sold in over 100 countries

Professionals in sawmills since 1989!

Both for portable & stationary use

Robust and easy to use

The Logosol chain sawmills cut with impressive precision and suits both beginners and more experienced sawyers. You get started quickly and get good results immediately. The chain sawmills are easy to use. On the very first day, you can produce a good-sized stack of planks and boards!

Advantages of our chain sawmills

- ✔ A saw carriage that slides perfectly on the guide rail, and is prepared for bar nose steering and and vibration-damping feeding crank.
- ✔ Exclusive and durable surface finish. It never rusts and is dirt-repellent. Can stand outdoors all year round.
- ✔ A smart ratchet system with clear scales gives quick and exact height adjustments.
- ✔ The sawmills are built of a smart module system and can be extended and upgraded when required.
- ✔ Strong locking of the guide rail sections facilitates assembly and gives increased stability.
- ✔ Under the guide rail, there is a horizontal, easygrip carrying handle that facilitates lifting the sawmill.
- ✔ Two unique log clamps secures the log firmly. They are included as standard.
- ✔ The distance between the guide rail and the log enables you to cut knotty and crooked logs without problem.
- ✔ Impressive accuracy. Exact height adjustment gives your timber the right dimensions every time.

From log to boards with the Logosol chain sawmills

The saw unit is easily installed on the carriage, which slides smoothly and accurately on the guide rail.

Clear scales give you the right measurements for each cut. A smart auto-locking system allows very quick height adjustments.

The first saw cut. The log is secured, and the chain cuts easily through the log, giving a fine result.

Pull back the saw unit, raise the log by using the integrated log lifters and cut boards from the log.

LOGOSOL F2 chain sawmill

- A light, strong and maintenance-free sawmill that you will really appreciate. Many smart and patented features.
- The world's most versatile sawmill. Extend, expand and adapt to your needs.
- Addictive! You're quick to saw and once you start, you can't stop. Your sawmill will be joy for you and your family, and for generations to come.
- **Included as standard with F2:** F2 saw carriage, XL log clamps & unique self-locking log lifters!

BIG MILL WIDE SLABBER

The ultimate solution for cutting wide slabs

BIG MILL TECHNICAL DATA

5000-000-0002	Big Mill, 56” (142 cm), incl. guide bar and chain
5000-000-0003	Big Mill, 66” (166 cm), incl. guide bar and chain
5000-000-0004	Big Mill, 84” (214 cm), incl. guide bar and chain

Available with petrol engine

Available with electric motor

Available in three options:

110 Max. log diameter 110 cm

135 Max. log diameter 135 cm

180 Max. log diameter 180 cm

Technical data: Logosol Big Mill

Weight: 41 kg (saw frame: 26 kg, rail assembly: 15 kg)
Length: 2x3 metres as standard. Easy to extend.
Max. log diameter: Up to 180 cm, with the possibility of sawing even larger logs.
Guide bar length: 142, 166, 214 cm
Max. sawing width: 110, 135, 180 cm
Recommended motor power: Approx. 9 hp. We recommend the Stihl MS880. It can also be equipped with Logosol’s electric saw unit ES8 WS.

COMPONENTS

Watch a video on how to change chain and fit the equipment to a log!

Special Bars and Chains for Big Mill

		Sawing width
3010-056-0143	Guide bar 56” (142 cm)	110 cm
3671-000-0153	Chain for 56” guide bars	
3010-066-0168	Guide bar 66” (167 cm)	135 cm
3671-000-0177	Chain for 66” guide bars	
3010-084-0214	Guide bar 84” (214 cm)	180 cm
3671-000-0220	Chain for 84” guide bars	

Electric Saw for Big Mill

The Logosol ES8 WS is adapted for the Big Mill. The electric saw starts directly when you press the button and is significantly quieter than a petroldriven chainsaw.

4920-000-0005	ES8 WS, without bar and chain

Vertical Bars

For the Big Mill saw carriage. Should be used when the slabs are really thick or when you want to split the log through the heartwood.

4920-001-0016	Vertical Bars, price per unit

Guide Rail Prop, for Long Guide Rails

Supports the guide rail. Should be used when the guide rail is extended to a length longer than 3 m and always when you are sawing with an electric saw.

4920-001-0475	Guide Rail Prop

The powerful Stihl MS880 does the job!

For the Logosol Big Mill, we recommend the Stihl MS880. It is one of the strongest chainsaws on the market. 8.6 hp, 9.9 kg.

1124-011-3036	MS881, without bar & chain

Guide Bar Adjuster

A long guide bar tends to hang down when it is supported at both ends. A quick and easy way of straightening the guide bar is to use the guide bar adjuster.

4920-001-0480	Guide Bar Adjuster

Now, you can easily produce wide, live-edge slabs from different sorts of fine wood. You get unique end products with a high value.

LOGOSOL TIMBERJIG
ultra-portable sawmill

- It can handle logs that are up to 60 cm in diameter. The original that you can expand, it can be extended as much as you want! 2 year warranty!
- Cut boards with your chainsaw! It fits most chainsaws.
- Many customers choose to upgrade with a guide rail package for easier sawing.
- Stable rail holders with exact adjustment steps make sawing easy.
- Great freedom to cut timber where the trees are
- The original! A complete system for cutting boards with your chainsaw.

TIMBERJIG ULTRA-PORTABLE SAWMILL
Original! A complete system for log sawing

TIMBERJIG TECHNICAL DATA

4900-000-4000	Logosol Timberjig with guide rail package

Max. log diameter 60 cm

Max cant width 50 cm

Available with petrol engine

Technical data: Logosol Timberjig + guide rail package

Weight: 15 kg
Length: 3 metres as standard. Easy to extend.
Capacity: 2-3 logs per hour.
Max. log diameter: Up to 60 cm, with the possibility of cutting even larger logs.
Recommended bar length: 40-63 cm
Recommended motor power: Chainsaws of at least 3,3 kW (4.5 hp)

COMPONENTS

Logosol Timberjig Attach it with the two guide bar bolts of the chainsaw. If you build your own guide rail of wood for making the first cut, the Timberjig can be used without the guide rail package. However, to get the best result when sawing, we recommend that you use the guide rail package.

4900-000-1000	Logosol Timberjig

Guide rail package for the Logosol Timberjig For high precision and exact measurements in every saw cut. The guide rail package consists of two rail holders of steel and three 1-metre-long guide rail sections of aluminium. The package allows easy transport and storing. **Recommended!**

4900-000-4005	Logosol Timberjig Guide Rail Package

Chainsaws We can supply you with chainsaw, guide bar and chains that are adapted for log sawing. We recommend Stihl MS391 or MS661 when you are sawing with the Logosol Timberjig.

1140-011-3034	Stihl MS391 chainsaw, 3.3 kW (4.5 hp), excl. saw carriage and feed unit
1144-011-3054	Stihl MS661 chainsaw, 5.3 kW (7.1 hp), excl. saw carriage and feed unit

Guide rail prop, accessory for long rails Should be used when the guide rail is extended to a length longer than 3 m. Compatible with Timberjig and Big Mill.

9999-000-1026	Guide Rail Prop

Many fields of use. You can make:

- ✔ A hunting lookout in the woods
- ✔ A garden shed or a sauna
- ✔ Simple benches and tables
- ✔ Joinery materials
- ✔ Woodwork in your garden
- ✔ Cladding boards

5-year warranty and 60 days money-back guarantee • For current prices, visit **www.logosol.com** • Some products and accessories are not available in all markets.

LOG MOULDING & PLANING

LM410 TECHNICAL DATA

Compatible with most band sawmills on the market!

LM410 fits these rail widths: 825-960 mm

LM410 XL fits these rail widths: 1014-1140 mm

8000-000-0615	LM410 4 kW, fits B751/B751 PRO and similar
8000-000-0625	LM410 9 hp, fits B751/B751 PRO and similar

BAND SAWMILLS

Made in Sweden by Logosol

Professional performance and high capacity

Quiet and vibration-free sawing

Sturdy, stable, and with a stylish design

A band sawmill for highest capacity

When you require high capacity and professional performance. Our sturdy band sawmills have impressive precision. Well thought-out functions give a stable structure that allows a smooth operation when producing your own timber.

B751:

I appreciate the care taken in the details of the bandsaw.

Mikael Karlsson

Logosol bandsaws are easy to use. You work quickly and comfortably and get a perfect sawing result. Log holders with sturdy handles and robust design fix the log with great force without damaging the wood. The function locks as well on the first cut as when sawing the last thin board.

Why you should buy your band sawmill from Logosol:

- ✔ Extremely sturdy and stylish sawmills in premium quality. We only build sawmills that we and our customers are proud of.
- ✔ You're quickly up and running! Preassembled saw head and easy setup of your sawmill.
- ✔ The saw head is adjusted with sturdy chains in precise steps. Ensures identical dimensions through the entire log.
- ✔ Adjustable and deluxe blade guides that everyone wants for great results.
- ✔ The band wheels are combined fan wheels that blow away sawdust, keep things clean and cool the blades. These super-strong, lightweight wheels provide quick saw blade acceleration.
- ✔ Swedish design and manufacturing with carefully engineered integrated functions and smart design. 30 years of experience in sawing timber and developing sawmills. With a sawmill from Logosol, you'll be a pro straight away.
- ✔ Patented log clamps with eccentric clamping that hold the log in an iron grip.
- ✔ Appreciated Last-Cut indicator on the height adjustment scale that shows the position of the last cut, and works as a reference for the next.
- ✔ A community you want to be part of. Fantastic customers around the world who inspire, engage and shine. Welcome to the world of Logosol!

5-year warranty and 60 days money-back guarantee • For current prices, visit **www.logosol.com** • Some products and accessories are not available in all markets.

LOGOSOL B751 band sawmill

- **Robust and well thought-out. A stable design that gives you an amazing sawing result.**
- **Impressive quality and function. Same saw head as on our larger sawmills.**
- **Easy to extend based on your needs. How long are the logs you'll be cutting?**
- **Included as standard with B751:** Band blade, levelling feet, adjustable blade guide, water cooling, 2 log clamps, 2 short log supports & Blade Align adjustment tool!

B751 BAND SAWMILL

Swedish band sawmill cuts best in its class

B751 TECHNICAL DATA

8200-000-0012	B751 with 15 hp petrol engine (Loncin) and electric start
8200-000-0025	B751 with electric motor 4.6 kW

Available with electric motor | Available with petrol engine | Max. log diameter 75 cm | Max. cant width 60 cm | Available with manual feeding and height adjustment

BAND BLADES

9007-033-3843	Standard 33x1.1 mm. Sold in 5-pack.
9007-034-3843	HSS/Bimetal 34x1.1 mm. Sold in 5-pack.
9004-134-3843	Premium band blades (carbide), 34x1.1 mm. Sold individually.

BLADE SHARPENING MACHINE

Grindlux

Sharpens your band blades fully automatically. Tooth rake angle, gullet depth and take-off are adjustable.

9999-000-1505	Logosol Grindlux

EXTENSIONS

8410-001-0005	B751, 1140 mm

ACCESSORIES

Pre-Cutter for band sawmills

Extend Blade Life, protects your saw blades by removing impurities from the surface of the log before cutting. This simple yet brilliant tool saves both time and money,keeping your saw teeth sharper for longer.

8210-001-0110	Pre-Cutter for B751/B751 PRO
8210-001-0111	Pre-Cutter for B1001
9031-011-0004	Protective cover for B751/B751 PRO
8210-001-0030	Short log supports, 1 pair
8210-001-0015	Long log supports, 1 pair
8210-555-0010	Extra log clamp package
8210-001-0020	Only the log clamp
8410-001-0010	Manual toe board

Hydraulic toe board

Manual hydraulic toe board for quick adjustment of the top end of the log.

8210-001-0070	B751/B751 PRO

Technical data: B751 band sawmill

Capacity

Max. log diameter: 751 mm
Max. cant width: 600 mm
Effective sawing length (standard): 4800 mm
Max. board thickness: 220 mm (8 3/4 inches)
Min. thickness of last board: 25 mm (1 inch)

Band wheels

Band wheel diameter: 500 mm
Maintenance-free wheel bearings. Integrated fan for cooling and effective cleaning of the cover.

Band blades

Blade length: 3843 mm
Blade width: 30-41 mm
Blade speed: 30 m/s

Motor options

Petrol engine: 15 hp.
The petrol-driven model has a first-class centrifugal clutch that facilitates the engine thrust while sawing.
Elelctric motor: Highly efficient 4.6 kW motor.

Machine dimensions

Length: 5800 mm
Width: 1967 mm
Height: 1900 mm
Weight: 423 kg

Well thought-out in every detail

A unique Last-Cut indicator on the height adjustment scale shows the position of the last cut, and works as a reference for the next. This increases the production.

The band wheels have fan blades, which both blow out the sawdust and keep it clean and tidy inside the sawhead.

Patented log handling. Two log clamps and two log supports are included. They secure the log with great force without damaging the timber.

5-year warranty and 60 days money-back guarantee • For current prices, visit **www.logosol.com** • Some products and accessories are not available in all markets.

LOGOSOL B751 PRO band sawmill

- In standard configuration, it handles those really big logs, up to nearly 5 meters long. Easy to extend.
- All accessories for the B1001 are also available for the B751 Pro, e.g., trailer kit and Smart Set.
- Extra sturdy rail frame, same as for B1001.
- Prepared for installation of trailer kit and the Smart Set system.
- **Included as standard with B751 PRO:** Cut Set or Easy Set, Band blade, levelling feet, adjustable blade guide, water cooling, 2 log clamps, 2 short log supports, 2 long log supports & Blade Align adjustment tool!

BLADE SHARPENER

Grindlux

Sharpens your band blades fully automatically. Tooth rake angle, gullet depth and take-off are adjustable.

9999-000-1505	Logosol Grindlux

ACCESSORIES

Hydraulic toe board

Manual hydraulic toe board for quick adjustment of the top end of the log.

Protective cover

Neat and practical protective cover in sturdy PVC for your Band Sawmill.

8210-001-0070	Hydraulic toe board
9031-011-0004	Protective cover

Extra log clamp package Strong log clamp that holds the log in a firm grip. Includes log clamp and log clamp rack.

8210-555-0010	Extra log clamp package

Log handling package

Manual log handling for larger logs. log Loader/rotator, 2 loading ramps, 2 XL log holders, conversion kit for anti-tip plates, and 3 XL support legs.

8200-555-0015	Log handling package

Manual toe board

For quick and easy adjustment of the top end of the log. For logs that are under 50 cm in diameter.

8410-001-0010	Manual toe board

Trailer kit with support legs

Make your sawmill mobile.

8410-001-0036	Trailer kit with support legs

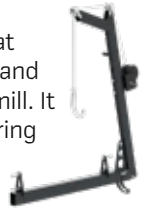

XL support legs

For permanent installation of the sawmill. Should be used together with the log handling package if a trailer kit is not used. Requires conversion kit for the anti-tip plates.

8210-001-0080	XL support legs, 3 pcs

Log loader/rotator

A smart crane with winch that allows you to easily load and and rotate large logs on the sawmill. It can easily be folded away during sawing. Requires conversion kit for the anti-tip plates.

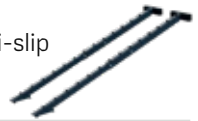

8210-001-0090	Log loader/rotator

Conversion kit for anti-tip plates

For Log Loader/Rotator and XL Support Legs.

8310-001-0110	Conversion kit

Loading Ramps

Loading ramps with anti-slip protection for smooth log loading.

8310-001-0090	Loading ramps, 2 pcs

Extra pair of log supports

Short and long log supports.

8210-001-0030	Short log supports, 1 pair
8210-001-0015	Long log supports, 1 pair

Technical data: B751 PRO band sawmill

Capacity
Max. log diameter: 751 mm
Max. cant width: 600 mm
Effective sawing length (standard): 4800 mm
Max. board thickness: 220 mm (8 3/4 inches)
Min. thickness of last board: 25 mm (1 inch)

Band wheels
Band wheel diameter: 500 mm. Maintenancefree wheel bearings. Integrated fan for cooling and effective cleaning of the cover.

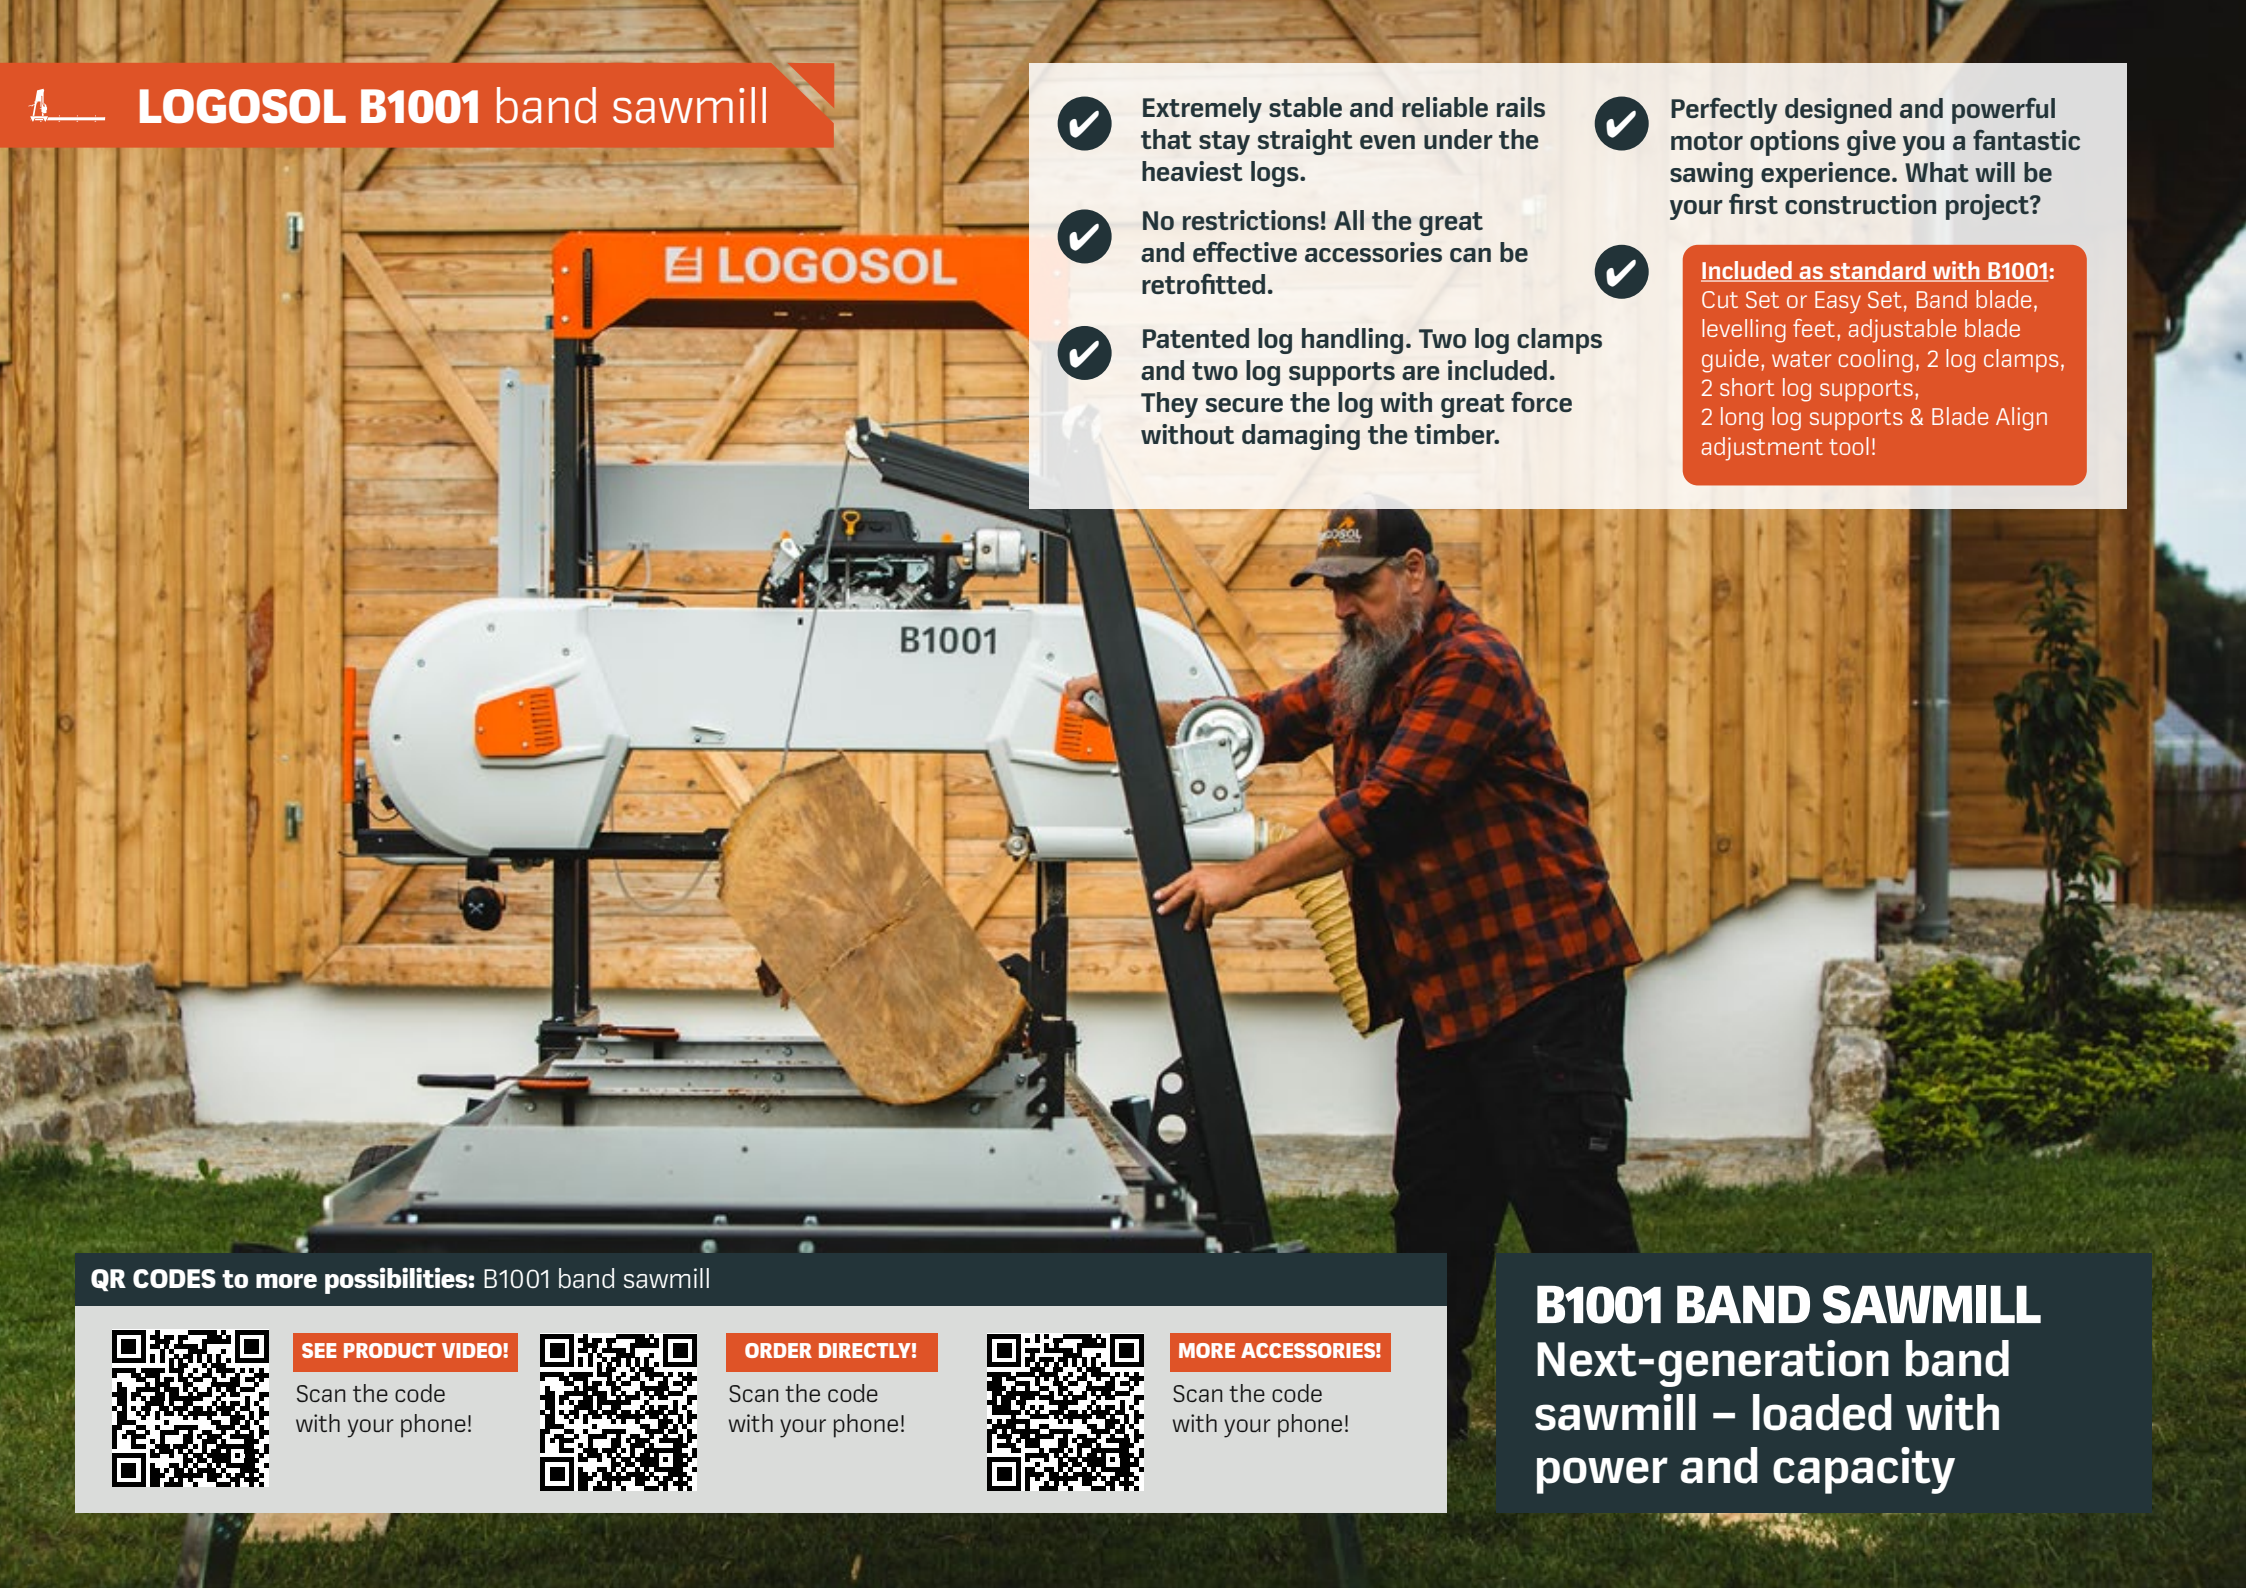

Band blades
Blade length: 3843 mm
Blade width: 33 or 34 mm
Blade speed: 30 m/s

Motor options
Petrol engine: 18 hp with electric start. The petrol-driven model has a first-class centrifugal clutch that facilitates the engine thrust while sawing.
Electric motor: Highly efficient motor of 8 kW. With that power the B751 PRO can compete with significantly larger and more expensive band sawmill!

Machine dimensions

LOGOSOL B1001 HYDRAULIC band sawmill

- **You can entirely load, position, lock and rotate logs using the hydraulics.**
- **Control sawing from the control unit and avoid all that heavy lifting.**
- **The system's control unit is designed for optimal ergonomics and good visibility when sawing by being adjustable, both vertically and horizontally.**

Included as standard with B1001 Hydraulic: Cut Set or Easy Set, 2 log supports, 1 log clamp, 2 toe boards, 1 log rotator, 1 extension, 4 pairs of support legs, 1 band saw blade, levelling feet, adjustable blade guide, water cooling & Blade Align adjustment tool!

Log loaders can be added.

The B1001 Hydraulic is an absolutely fantastic sawmill that gives you control of the entire sawing process from the control unit. This gives you an efficient and comfortable sawing experience. You can effortlessly lift logs off the ground and rotate them into the correct position. Being able to easily handle logs up to 2000 kg is a fantastic experience. A wise choice for those who want a first-rate band sawmill that is a pleasure to use!

8300-000-0057	B1001 Hydraulic, Easy Set, 23 hp (Briggs & Stratton) petrol engine and electric start

Control unit functions:

Log supports | Log clamp | Toe board | Log loader | Log rotator | Extra toe board

BAND BLADES

9007-033-4310	Standard 33x1.1 mm. Sold in 5-pack.
9007-034-431	HSS/Bimetal 34x1.1 mm. Sold in 5-pack.
9004-134-4310	Premium band blades (carbide), 34x1.1 mm. Sold individually.

EXTENSIONS

8310-001-0005	B1001, 1156 mm

TRAILER KIT

8310-001-0036	Trailer kit with support legs

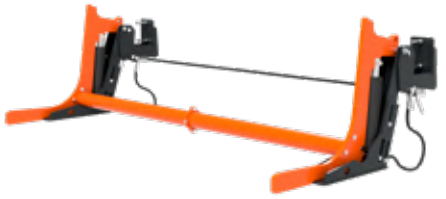

ACCESSORIES

XL support legs

Stable legs for permanent sawmill installation. Additional purchase of anti-tip plates required.

8310-001-0060	XL support legs B1001, 3 pcs

Log loader

Two powerful arms that lift the log from the ground up onto the saw bed. Compatible with Hydraulics Package for B1001 and B1001 Hydraulic!

8310-001-0205	Log loader B1001

Hydraulics package for B1001 band sawmill

Includes: Control unit and hydraulics unit, 2 log supports, 1 log clamp, 2 toe boards and 1 log rotator.

8310-001-0200	B1001 electric
8310-001-0300	B1001 petrol-driven

Technical data: B1001 Hydraulic band sawmill

Control panel
Manually controlled valves (4-8 functions)
Powerpack with 3 kW electric motor, 4 l oil tank, and 3.15 cm³ oil pump.
Connect with a CEE 16A socket (on/off on button).

Compatible with Smart Set.
Work platform [680x950 mm] that protects the powerpack.

Toe Board
Cross bunk HD (tubular construction)
Log roller: Ø 100 mm
Max. lifting height: 70 mm

Log Clamp
Double horizontal guides, 2x40 mm profile
Min. clamping width: 20 mm
Max. clamping width: 700 mm
Vertical stroke: 300 mm

Log Supports
Quantity: 2 supports
Function: Mechanically connected log supports that automatically have the same vertical position.
Stroke: 305 mm.
Material: 40 mm stainless steel bar and a linkage consisting of 8 mm laser-cut plates.

Log Rotator
Sturdy hydraulic cylinder for raising/lowering.
Hydraulic motor for chain drive.

Log Loader
Lifting capacity: 2 000 kg
Max. log diameter: 1 000 mm
Min. log length: 2 100 mm

Capacity
Max. log diameter: 1001 mm
Max. cant width: 850 mm
Effective sawing length (standard): 6000 mm
Min. thickness on the last board: 25 mm (1 inch)

Band blades
Width: 33 mm
Rotational speed: 30 m/s

Band wheels
Band wheel diameter: 500 mm
Maintenace-free bearings.
Integrated fan for cooling and effective cleaning of the cover.

8500-000-0020	B1651, Easy Set, Pro Set, Pro Feed, 27 hk (Loncin) petrol engine and electric start

Max. log diameter 165 cm

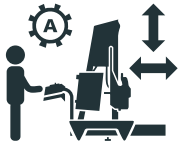

Max. cant width 150 cm

Available with petrol engine

Available with electric motor

Easy Set / Pro Set and Pro Feed as standard

Technical data: B1651 band sawmill

Capacity

Max. log diameter: 1651 mm
Max. cant width: 1500 mm
Effective sawing length (standard): 4380 mm
Max. board thickness: 220 mm (8 3/4 inches)
Min. thickness of last board: 25 mm (1 inch)

Motor options

Electric motor: Highly efficient motor of fully 12 kW with automatic Y/D starter.
Petrol engine: The 27 hk petrol-driven model has a first-class centrifugal clutch that facilitates the engine thrust while sawing.

Band wheels

Band wheel diameter: 500 mm. Maintenance-free wheel bearings. Integrated fan for cooling and effective cleaning of the cover.

Band blades

Blade length: 5610 mm
Blade width: 30-41 mm
Blade speed: 30 m/s

Machine dimensions

Length: 6232-6857 mm
Width: 2715 mm
Height: 2850 mm
Weight: 1300 kg

BAND BLADES

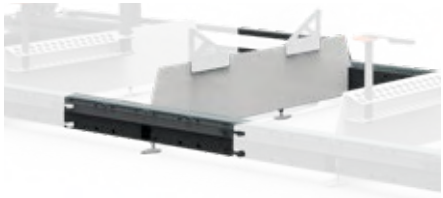

Logosols Hard-Tested and Ultimate Bandsaw Blade

Our bandsaw blades are carefully chosen with special teeth and strong, flexible material to provide the best sawing experience in your band sawmill.

9007-033-5610	Standard 33x1.1 mm. Sold in 5-pack.
9007-034-5610	HSS/Bimetal 34x1.1 mm. Sold in 5-pack.
9004-134-5610	Premium band blades (carbide), 34x1.1 mm. Sold individually.

EXTENSION

Extension, B1651

Sawmill extension. Extend your sawmill and saw longer logs. The B1651 band sawmill can be extended in a section of 1.15 m. This package contains a section with the extension, one log shelf, extension electric cable, cable chain and feed chains.

8310-001-0010	B1651, 1156 mm, for electric motor
8310-001-0012	B1651, 1156 mm, for petrol engine

STEEL WEDGES

A pair of Log-Securing Steel wedge B1651

For the largest logs, use these sturdy steel wedges to lock the log in place. The package contains two steel wedges with locking knobs.

8310-001-0015	Steel wedges, B1651, a pair

Easy Set, Pro Set and Pro Feed included as standard

Easy Set gives you a smooth setting of the saw head, with Pro Set you have an intelligent control of Easy Set to set or program the saw cuts you want to make. The Pro Feed, with dual motors feeds the saw head back and forth through the log.

Pro Set, the automatic data measuring device is an intelligent control of the Easy Set

A great help for programming the cuts you want to make. An extremely good control system that is on a completely different level than similar solutions in the industry.

- You can see all the information on a display and easily control the exact position of the saw head at the touch of a button.
- Program the cuts you want to make, either individual thicknesses or a series of board thicknesses.
- The Pro Set helps you calculate how many boards and planks you can get out of the log and what order will give you the maximum yield.
- Pro Set is an ideal choice for those looking for high quality and ease of sawing.
- The scale also features a Last Cut indicator that remembers your last cut and becomes a reference for the next one. This makes it easier for the sawyer to produce timber in exactly the right dimensions every time. You work quickly and comfortably and get a perfect sawing result.

Pro Feed, dual motor, power feed control

From a control unit at the end of the sawmill, you can drive the saw carriage back and forth on the rail with adjustable speed. The console is foldable for optimal visibility when sawing. You don't have to walk with the saw carriage in noise and sawdust spray and the feed rate is even and optimized for best results. Very ergonomic design and easy to use.

The feed is combined with the Pro Set where you can also set the saw cut from the control panel (raise-lower the saw head) either manually or by setting different "recipes" for how you want to saw the next cut. The feed is by chain and is available for both 12V and 400V (petrol saw / electric saw).

5-year warranty and 60 days money-back guarantee • For current prices, visit **www.logosol.com** • Some products and accessories are not available in all markets.

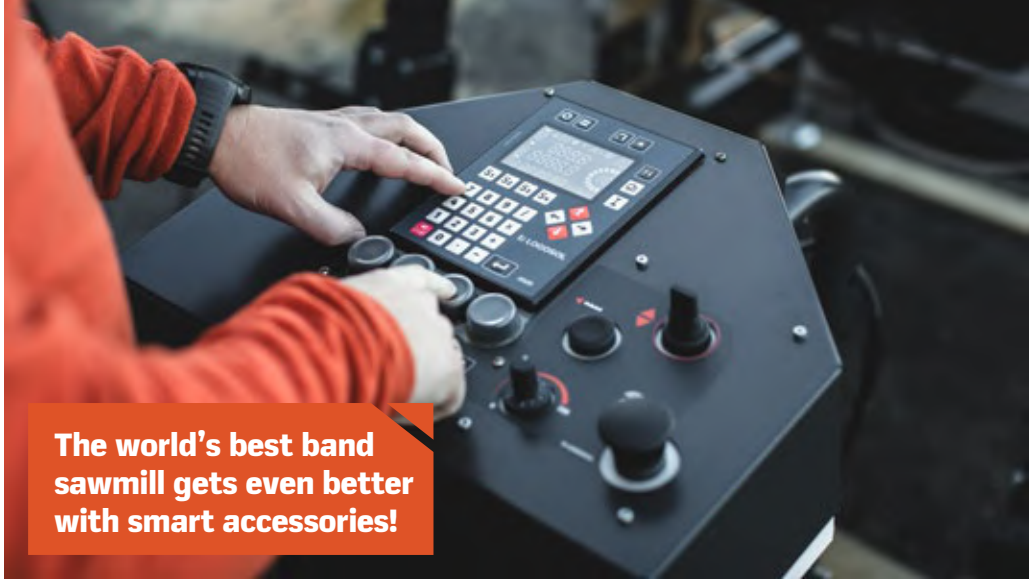

BAND SAWMILLS accessories

For more information visit logosol.com!

Choose the height setting for your band sawmill and discover the possibilities of customizing it with control systems and feeding to suit your needs!

Logosol band sawmills have smart control systems for different operations. You choose either Cut Set or Easy Set to set the saw cut (the height of the saw head) and you can also buy the Pro Set, which is an intelligent control of the Easy Set. If you have Pro Set, you also have the option to buy Pro Feed, which feeds the saw head back and forth through the log.

Customise your sawmill to your needs and rest assured that you always have the option to upgrade when necessary. We make it easy for you to choose the right solution that's perfect for your current needs, but can also evolve with your construction projects and future dreams.

Step 1 – Choose a band sawmill with either manual or motorised saw cut setting

Cut Set (manual height adjustment)

The market´s best manual crank with millimeter scale on the market gives you a precise adjustment of the saw head.

- ✔ The scale and mechanics allow you to set the height in millimeter steps for absolute precision.
- ✔ Easily read the measurements on clear scales and adjust the pointer for optimal viewing angle, making reading the scales easy.
- ✔ A Last Cut indicator on the height scale remembers your last cut and provides a clear reference for the next one. You work quickly and comfortably and get a perfect cutting result.

Possibility to upgrade

- ✔ It is possible to upgrade from Cut Set to Easy Set afterwards, you then replace the manual crank with a motorised one. When you buy Easy Set, the control system is prepared to add Pro Set and then Pro Feed, automatic remote feeding and everything fits in the same box mounted on the side of the sawmill.

Easy Set (motorized height adjustment)

Simplify height adjustment and avoid hand cranking with the Easy Set!

- ✔ The Easy Set makes it easy to raise and lower the saw head at the touch of a button.
- ✔ After adjusting the saw head, the position is read on the scale, and fine-tuning is done using an adjacent knob. This allows you to position the saw blade exactly where you want it easily.
- ✔ A Last Cut indicator on the scale also remembers your last cut and becomes a reference for the next one. This makes it easier for the sawyer to produce wood in precisely the correct dimensions every time. You work quickly and comfortably and get a perfect sawing result.

Possibility to upgrade

- ✔ When you buy Easy Set, the control system is prepared to add Pro Set and then Pro Feed, automatic remote feeding and everything fits in the same box mounted on the side of the sawmill.

The following band sawmills are equipped with **Cut Set:**			
8200-000-0058	B751 PRO Cut Set, 8 kW electric	8300-000-0031	B1001 Cut Set, 12 kW electric
8200-000-0051	B751 PRO Cut Set, 18 hp petrol	8300-000-0012	B1001 Cut Set, 23 hp petrol
8300-000-0051	B1001 Hydraulic Cut Set, 23 hp petrol	8300-000-0054	B1001 Hydraulic Cut Set, 12 kW electric

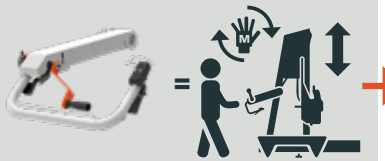

The following band sawmills are equipped with **Easy Set:**			
8200-000-0059	B751 PRO Easy Set, 8 kW electric	8300-000-0050	B1001 Easy Set, 12 kW electric
8200-000-0052	B751 PRO Easy Set, 18 hp petrol	8300-000-0059	B1001 Easy Set, 23 hp petrol
8300-000-0057	B1001 Hydraulic Easy Set, 23 hp petrol	8300-000-0056	B1001 Hydraulic Easy Set, 12 kW electric

Summary of the programme

STEP 1 – Choose band sawmills with either manual or motorised saw cut setting

Cut Set - manual height adjustment

Easy Set - motorized height adjustment

Retrofit - upgrade kit

If you have a sawmill with Cut Set, you need to upgrade to Easy Set before you can add Pro Set and Pro Feed.

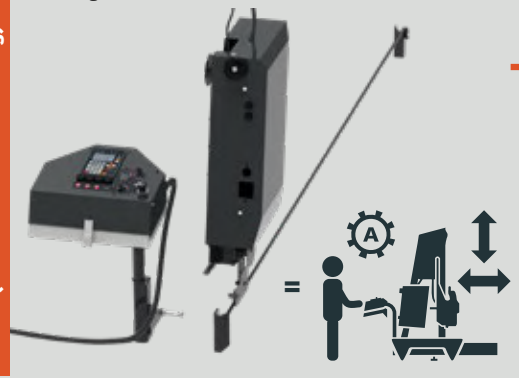

STEP 2 – Upgrade with Pro Set (automatic height adjustment)

Easy Set + Pro Set = motorised and intelligent control of the saw head

STEP 3 – Upgrade with Pro Feed (automatic remote feeding)

Easy Set + Pro Set + Pro Feed = motorised intelligent control of the saw head and feed

STEP 4 – Upgrade with many other accessories like trailer kits, log loaders and more

Step 2 – Upgrade with Pro Set (automatic height adjustment)

Pro Set - automatic data measurer (intelligent control of Easy Set)

The Pro Set is more than just an accessory - it's a transformation module that turns your sawmill into a high-performance, smarter and even more productive machine. You get precise and easy control over saw head positioning, making your work not only faster but also much more efficient.

Those who have used the Pro Set agree: it's a revolutionary upgrade that takes both quality and functionality to an even higher level.

- ✔ Program the cuts you want to make, either individual thicknesses or a series of board thicknesses.
- ✔ You can see all the information on a display and easily control the exact position of the saw head at the touch of a button.

Possibility to upgrade

- ✔ The Pro Set can be upgraded with the Pro Feed automatic remote feed, and everything fits in the same box mounted on the side of the sawmill.

- ✔ Precise saw positioning. Pro Set positions the saw head precisely and automatically adjusts for the thickness of the cut.
- ✔ Robust and durable design: Specially designed to withstand up to 6 million keystrokes.
- ✔ Includes multiple sawing options, efficient planning with board lists, specialised programs and built-in self-diagnostics.

8250-000-0050	Pro Set for B751 Pro & B1001 electric
8250-000-0055	Pro Set for B751 Pro & B1001 petrol

Step 3 – Upgrade with Pro Feed (automatic remote feeding)

Pro Feed - (smart controller to drive the saw carriage back and forth)

From a control unit at the end of the sawmill, you can drive the saw carriage back and forth on the rails at an adjustable speed.

- ✔ The pulpit is foldable for an optimal overview when sawing.
- ✔ You don't have to walk with the saw carriage in the noise and sawdust, and the feed speed is even and optimised for best results.
- ✔ It has a very ergonomic design and is easy to use.
- ✔ The feed is combined with the Pro Set, where you can also set the saw cut from the pulpit (raise-lower the saw head) either manually or by setting different "recipes" for how you want to see the next cut.
- ✔ The feed is chain-driven and available for 12V and 400V (petrol saw / electric saw).

8250-000-0070	Pro Feed for B751 Pro, B1001, B1001 Hydraulic electric
8250-000-0072	Pro Feed for B751 Pro, B1001, B1001 Hydraulic petrol
