User manual 0458-395-5013

Toe board 8210-001-0010

ASSEMBLY

The toe board is an optional attachment for the sawmill and should be fitted to one of the cross bunks.

Read all the assembly instructions before beginning the assembly, and then follow the step-by-step instructions during the assembly.

Order of assembly

EXPLODED VIEW

Toe board

-  — 2 x — Tensilock nut M8
-  — 1 x — Spacer sleeve 11mm

Spacer sleeve taken from the cross bunk.

5

Hang the toe board up on the attachment points on the cross bunk.

USING THE TOE BOARD

COMPENSATE FOR TAPERED LOGS

Use the toe board to compensate for tapered logs. Lift the log at its narrow end until the pith of the log is level.

ROTATE LOGS

When you are going to rotate a log before taking the next cut, you can use the toe board as a cant hook.
